INSTALLATION INSTRUCTIONS

- This warning light is designed for Interior or Exterior use
- Ensure the light is placed in a well ventilated area away from sources of heat
- Loosen the 2x bracket mounting screws to adjust the position of the light on the bracket
- Tighten these mounting screws when the desired angle is a achieved before use
- Make sure suction mount cups are securely applied to windscreen surface before use
- Connect to a 12V power source via the lead and adapter supplied
- Use the on/off switch on the cigarette plug adapter to power the unit on or off
- Use the red button on the rear of the light housing to change flash pattern to the desired setting

⚠ This Light uses High-Intensity LED lights. DO NOT stare directly into the light while it is switched on as momentary blindness and/or permanent eye damage may occur.

⚠ Care should be taken when positioning this warning light so that neither the light or cord interferes with the correct operation of the vehicles airbag systems. Refer to the vehicle manufacturer's handbook for information on airbag deployment zones.
